

soil/compost

short term flowering plants - for AutoPot users

all measurements below are per litre of water

growth

	week 1	week 2	week 3	week 4	week 5	week 6	
gro A grow stimulator	0.25ml	0.25ml	0.5ml	0.5ml	1.0ml	1.0ml	continue growth stage if required
gro B grow stimulator	0.25ml	0.25ml	0.5ml	0.5ml	1.0ml	1.0ml	continue growth stage if required
origin root stimulator	0.4ml	0.4ml	0.4ml	0.4ml	0.4ml	0.4ml	continue growth stage if required
alluvium PK stimulator	NIL	NIL	NIL	NIL	NIL	NIL	continue growth stage if required
delta boost stimulator	0.2ml	0.2ml	0.2ml	0.5ml	0.5ml	0.5ml	continue growth stage if required
elements Cal/Mag stimulator plus	0.3ml	0.3ml	0.3ml	0.3ml	0.3ml	0.3ml	continue growth stage if required

The Vegetative/Growth Stage can be stopped at any time BUT ideally not before week two. The Vegetative/Growth Stage can also be extended indefinitely after week 6 if required. Once the Vegetative/Growth Stage is complete introduce the Flowering/Fruiting Schedule.
