AutoPot recommends the use of **The Source** fertiliser range

Manufactured in the UK

Delta Boost Stimulator uniquely assists in increasing plant mass and health during the growth stage of a plant. During the flowering/fruiting stages, size, quality, weight and flavour are all dramatically improved.

Delta Boost Stimulator is formulated from naturally occurring elements. Delta Boost Stimulator acts in two unique ways, firstly it will maintain health within the plant, helping it protect its self from pests and diseases. Secondly by promoting healthy growth during all stages of plant production.

"Used and tested by the UK's leading horticultural universities".

It is highly recommended that no other products should be used in conjunction with **The Source** Fertiliser program.

Contents

A proprietary blend of specific algal extracts with plant-sourced amino acids and glycine betaine with natural plant steroids and their potentiators including polyglucosides.

250ml
