AutoPot recommends the use of **The Source** fertiliser range

Manufactured in the UK

Elements CAL/MAG Stimulator Plus not only provides the perfect levels of Calcium and Magnesium required by the plant but it also assists with the plants vigour, flavour and yield by utilising plant sourced elements.

Elements CAL/MAG Stimulator Plus is a highly advanced scientific formula and extremely concentrated. **Elements CAL/MAG Stimulator Plus** provides additional strength to the plants formation, while minimising deficiencies within the plant. The Biostimulant elements provide anti-stress properties within the plant, ensuring that fertiliser uptake and use is at its maximum. **Elements CAL/MAG Stimulator Plus** contains no artificial PGR's.

"Used and tested by the UK's leading horticultural universities".

It is highly recommended that no other products should be used in conjunction with **The Source** Fertiliser program.
