

A specially formulated fertiliser created for all AutoPot Watering Systems when plants are in the GROWTH / VEGETATIVE stage.

Also suitable for ALL other methods of Hydroponic feeding

The Source Gro B Fertiliser is formulated for: SOIL/COCO/HYDRO

The Source Gro B Fertiliser A unique and scientifically proven formulation designed to be used with all AutoPot Watering Systems. This highly effective fertiliser can be used with all types of growing medium SOIL/COCO/HYDRO

"Used and tested by the UK's leading horticultural universities".

It is highly recommended that no other products should be used in conjunction with The Source Fertiliser program.

The Source Gro B Fertiliser along with a balanced NPK of 1.2-2-4, also contains the following; Amino Acids, Fulvic Acids, Natural Humic Acids, Vitamins, Sugars, Zinc, Boron, Copper, Cobalt, Molybdenum, Natural Stress relieving agents, EDTA Chelated Manganese.

Application rates dependant on the stage of plant growth

SOIL Use 0.25ml-1ml/litre of water

COCO/HYDRO Use 0.5ml-1ml/litre of water

Used as directed this bottle can produce up to:

4,000 litres of Gro B solution for SOIL

2,000 litres of Gro B solution for COCO/HYDRO

Ideally use an EC monitor to understand the EC of your plain water before you add any fertiliser. Plain water can have differing EC levels. Generally the EC of plain water can range from between 0.1-0.8.

CAREFULLY MEASURE YOUR WATER'S EC BEFORE ADDING ANY FERTILISER OR ADDITIVES.
