

Origin Root Stimulator increases root growth and production, which in turn improves flower/fruit formation, foliage growth and efficiency uptake.

Origin Root Stimulator comprises of 100% natural elements, formulated to increase root strength and root formation. Increased root mass maximises fertiliser uptake more effectively.

Origin Root Stimulator is derived from natural plant extracts and contains no artificial PGR's.

"Used and tested by the UK's leading horticultural universities".

It is highly recommended that no other products should be used in conjunction with **The Source** Fertiliser program.

Application rates To be used during the growth stage, flowering and fruiting stages of the plants life.

SOIL/COCO/HYDRO Use 0.4ml/litre of water.

Origin Root Stimulator is very concentrated.

Used as directed this bottle can produce up to:

2,500 litres of Root Stimulation solution

Origin Root Stimulator is formulated for **SOIL/COCO/HYDRO**
